

Part 1 - Introduction (5 minutes)

- What are the ethical implications of technology? (brainstorming with whiteboard)

Part 2 - Philosophical Ideas (15 minutes)

- Culpable ignorance (<https://philpapers.org/archive/HORCII-2.pdf>)
 - E.g. engineers not knowing the effects of their products
- Causal Proportions and Moral Responsibility (<https://philpapers.org/archive/BERCPA-7.pdf>)
 - Should moral responsibility be proportional to causal responsibility?

Part 3 - Case studies (25 minutes)

- The Challenger disaster (<https://cs181.keithw.org/feynman.pdf>)
 - Making decisions in time pressured environments
- DoorDash (<https://oag.dc.gov/sites/default/files/2019-11/DoorDash-Complaint.pdf>)
 - Underpaying employees
- Theranos (<https://cs181.keithw.org/Theranos-shorter-readings.pdf>)
 - Scams in technology

Part 4 - What have we learned today? (5 minutes)

- Summary with whiteboard
